DIRECTOR OF CENTRAL INTELLIGENCE
Committee on Imagery Requirements and Exploitation

13 AUG 1982

MEMORANDUM FOR:

[REDACTED]
DIA Member COMIREX

25X1

SUBJECT:

Future Systems Orientation Briefings [REDACTED]

25X1

1. I have been disappointed by the lack of Community participation--both DIA and Departmental--in the series of orientation briefings conducted to date for DOD elements on [REDACTED]. For example, only COMIREX and Program B representatives participated in recent briefings to SAC, ADCOM, AFAITC, USAICS and Camp Pendleton. I realize that DIA does not have direct management control over all of these components; however, DIA's unique DOD responsibilities in intelligence management for the Services, in my judgment, argues strongly for your participation. I will also request Services participation for Service facilities such as MIA. [REDACTED]

2. Request you seriously consider DIA participation in the remaining scheduled briefings--copy attached. I will also request participation by both Program Offices and the Military Departments as appropriate. [REDACTED]
